

# Hockey Revolution

The next generation sand-dressed hockey turf

Creative new yarn for revolutionary life time improvement !

artificial grass solutions

# Hockey Revolution

The strongest ever sand-dressed system. Fast and true, players will just love it.  
This monofilament yarn will knock shreds off the opposition.

- Two tone polyethylene texturized monofilament yarn
- The yarn's rectangular shape combined with its thickness contributes to the revolutionary wear resistance resulting in a pitch that provides consistent long-term playing characteristics
- The soft 160µ curly yarn does not split like previous technology hockey products do (fibrillated yarn)
- The fine 8-end 160µ curly yarn is the key to its unrivaled features
- The fine 960 Dtex of each yarn filament ensures a soft touch surface with excellent sliding properties and superb foot grip
- High density tufting of fine yarn ensures fast and consistent ball roll plus a very dense and true running surface
- Re-enforced backing ensures product stability and combined with abrasion resistant monofilament also long-term durability
- PU backing with ecological benefits available offering superior tuft lock and improved turf durability, even in wet conditions

## Technical specifications

<b>Production Method / gauge / stitch rate:</b>	Tufted / 3 / 16" / 275/M
<b>Yarn Material / yarn type:</b>	Polyethylene / Monofilament
<b>Dtex /ends / thickness:</b>	7.700 / 8 / 160µ
<b>Pile height / Pile weight:</b>	18 mm / 1650 gr/m <sup>2</sup>
<b>Coating:</b>	Polyurethane or Latex
<b>Colours:</b>	Darkgreen and olivegreen
<b>Marking lines:</b>	White & yellow
<b>Type of infill:</b>	Sand
<b>Infill weight:</b>	Depends on subbase, use of shock absorbing layer and type of infill
