

MATCHCLAY

Plays like clay indoor and outdoor, without the high maintenance of a real clay surface.

- TENNIS • NATURAL CLAY INFILL
- ALL YEAR ROUND PLAY • LOW MAINTENANCE

MATCHCLAY

A synthetic clay system that uses a combination of structured fibrebonded and natural clay to provide the play characteristics of a traditional clay court.

Product

A structured needlepunch all weather tennis surface.

Upgrade

Ideal for enhancing and renewing old or worn hard porous courts that have fallen into disrepair.

Fast Installation

Courts are supplied in kit form ready to be fully adhered directly to the surface, reducing the post-delivery preparation required.

Low Maintenance

Can be cleaned with jet washes and solutions or deep brushers. Inlaid lines need minimal maintenance, reducing on overall costs.

Warranty

Subject to conditions and exclusions, all products are guaranteed against defects in manufacturing, materials and workmanship, ultra violet degradation and excessive wear. Conditions apply, contact Playrite directly for additional details. Quality assured to British standards.

Inlaid Line Option

The surface comes with pre cut lines available to be inlaid into the surface, removing the need for uneven tape lines.

Added Value

Our engineered porosity system allows all-weather usage maximising playing time and increases revenue potential.

Performance

Matchclay gives consistent ball bounce and trajectory allowing players to slide and anticipate accurately.

Appearance

The clay in-filled surface has been designed to look and perform like a traditional clay surface without the high cost of maintenance.
