TENNIS

The ultimate sports surface

ULTIMATE EFFICIENCY

ULTISPORT TENNIS

The smooth finish and consistent playing performance of ULTISPORT TENNIS makes it the first choice for outdoor tennis courts. It also complies with the Sports and Play Contractors Association guidelines.

The ultimate sports surface

Ultimate performance

Available as a 6mm surface course normally laid in a 25-30mm layer, with the option of a 10mm or 14mm specialist binder course, ULTISPORT TENNIS is a tough durable product designed specifically for tennis courts which delivers the consistent performance that players expect.

Lasting finish

ULTISPORT TENNIS utilises aggregates specially selected for durability.

Improved water clearance

Quicker draining than conventional asphalt means courts are available for use shortly after rainfall.

Choice of colours

Available in black and red as standard, there are also a range of other colours available as part of our ULTICOLOUR range, with a choice of aggregate to suit site requirements.

Ultimate quality

Our third party accreditation procedures ensure a consistently high quality product is supplied at all times.
